To whom it may concern,

Cody Davis of Marketing Design Solutions has been helping my restaurants Scholz Garten and Green Mesquite in the area of designing web sites, menus and other graphics. He has put us on the map in the area of website design. Cody has also been training us in graphics and website creation. His ideas and designs are innovative and targeted to the our marketing approach. Cody helps me and my employees when we have to change or update something on the fly to meet various deadlines. He produces excellent work and I highly recommend him for web and graphics design and training.

Thank You,

A handwritten signature in black ink that reads 'Tom Davis'.
